

ProMaster Chassis Cab/Cutaway Centers of Gravity

For models with a wheel base of 159 inches (4035mm) $X_{cg} = 1020 - 1055\text{mm}$
 $Z_{cg} = 685\text{mm}$

This is for both the 159WB and 159WB EXT models.

For models with a wheel base 136 inches (3450mm)
 $X_{cg} = 851 - 864.2\text{mm}$
 $Z_{cg} = 685\text{mm}$

These values assume no passengers, no payload and represent as shipped 'pre-upfit' vehicles.
